

2 November 2020

To parents and carers at  
Ebor Academy, Filey

Dear Parent/Carer

We were informed this morning that two children and their parents have tested positive for Covid-19 during the half term break, however having spoken at length to Public Health England, we can inform all parents that no further action is needed as no contacts have been identified as the family did not come into contact with any members of our school.

**Therefore, our school will remain open as normal.**

We have risk assessed and discussed the situation with public health officials and together we are satisfied any risk has been minimised to a satisfactory level.

There is no need for your child or anyone else in your household to be tested for Covid-19 at this time.

If your child starts to develop symptoms of Covid-19, they are eligible for a test which can be arranged via [www.nhs.uk/ask-for-a-coronavirus-test](http://www.nhs.uk/ask-for-a-coronavirus-test) or by calling 119. Symptoms are a new persistent cough, a high temperature, or a change to their sense of taste or smell. **Please advise school immediately if your child does develop symptoms.** Children should not come to school with symptoms and should remain at home for at least ten days from when their symptoms appeared. Likewise they should not come to school if anyone in their household has symptoms and is awaiting a test result.

Please be reassured that the school continues to adhere to all government guidance in respect of preventative measures to suppress the virus and our risk assessment, which is reviewed regularly, is available on our website.

We know this is a worrying and stressful time for everyone. Please let us know if there is any way you feel we might be able to help you.

Yours faithfully

Mrs Gail Brown  
Chief Executive and Executive Headteacher
