<u>Frequently asked questions about remote learning:</u>

How many live lessons will my child have and in which subjects?

- 1 x English live session for all students per week
- 1 x Maths live session for all students per week
- 1 x Science live session for all students per week
- 1 x live session in all other subjects for all year 10 and 11 students per week
- 1 x live PSHCEE session for all students per fortnight

Why are you not doing every lesson as a live lesson?

- To support our families as they adjust to this new way of working, we have been moving across to live learning on a staggered basis. We are gradually increasing the number of live lessons being delivered over time and in line with parental/student feedback.
- We are paying close attention to pedagogical research and the advice from government advisors. The latest research indicates that too many live sessions can be detrimental to students' progress and wellbeing and we are therefore moving cautiously to ensure we get the right balance of 'live' and independent learning.
- In addition to providing a full time table of remote learning, we are continuing with the important work of looking after the children of our critical key worker families in our community. Whilst supervising these groups, our teachers are not available to teach 'live' sessions

What should my child be doing when?

- Your child should follow their normal school timetable. There will be an hour's learning set for each lesson showing on the timetable each day.

Where does my child find their invite to live learning sessions?

- Live learning invitations appear in your child's google classroom. Children have a Google classroom for each subject on their timetable.

What information might I find useful to help my child during this school closure?

- A copy of your child's timetable
- Guardian access to your child's Google classrooms
- A copy of your child's Google classroom log-in details and classroom codes

How do I find a copy of my child's timetable?

- Your child should have their timetable either copied or stuck into their school planner. If your child has lost their timetable, they should request a new copy from their tutor. If they are absent from school, please contact main reception who will arrange to have one emailed to you.

How do I get guardian access to my child's Google Classrooms?

- If you have not already got guardian access, please contact reception who will arrange for this to be set up for you.

Where can I find my child's classroom log in and code details?

🌟 Your child has written their log in details and each subject's classroom code (to access the classroom online) in their planner.

What do I do if my child has lost their Google classroom codes?

🌟 Please contact Mr Clappison at jclappison@fs.ebor.academy. You will need to provide: your child's full name, their teachers' names and their class names. We will then email you the correct codes for the classroom.

What do we do if we have no device (e.g. chrome book/laptop/computer) and/or access to the internet?

🌟 Please contact our main reception and we can discuss solutions.
